MATRIX

THE MODULAR SOLUTION
TO EQUIP EVERY VAN.

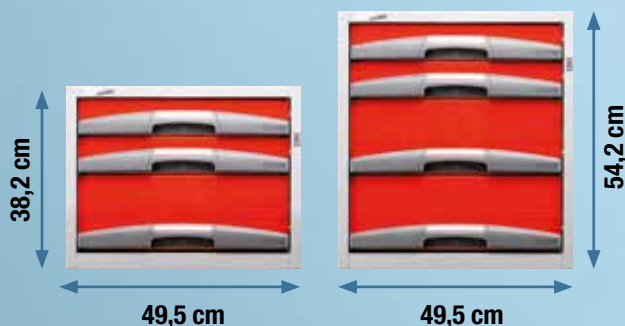

MATRIX PLANNER

From a simple commercial vehicle
to a mobile workstation...
in just 3 steps!

DISCOVER
MORE

EASY TO COMPOSE

All the elements of **Matrix** range are multiples of these modules:

MATRIX's modularity makes it possible to combine wheel-bases, drawer chests and shelves with simple and visible rules. That's why **Matrix** easily fits to all needs and vans.

1

Every lay-out starts with the **WHEEL-BASES** available in 8 models, suitable for all types of vans

2

The **MODULES** are the heart of Matrix: available in 29 variants designed with different sizes and combinations of drawers

3

SHELVES are to be placed on top of bases or drawer chests and have 3 different depths to best follow the van's shape

4

A wide range of **ACCESSORIES** allows to complete the lay-out

EASY TO DESIGN

VERSATILITY

USAG provides an intelligent solution for all solutions: Matrix the system that allows you to have all your tools perfectly organized when you're on the move and to locate them instantly for use once you reach the job.

A combination of removable tool boxes or fixed drawers can be fitted to suit a whole range of needs. The project combines technology and high awareness of the priorities of workers: Matrix is a truly modular solution that can be adapted and combined to offer specific solutions to meet every professional requirement.

Extractable boxes

An excellent slide system assures the total opening of the drawer

Ergonomic handles:

drawers can be opened with one hand.

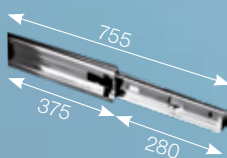

Easy opening

without removing the tool box, simply flip open the clip.

Telescopic slides

(max load 20 Kg)
with quick release of the drawer

ORGANIZATION

Take everything with you.

Ready to follow you anywhere: the tool boxes can be removed with the greatest of ease, without the need to remove any other parts.

Matrix is truly an ingenious system: work is suddenly simpler and less strenuous.

The outfitted vehicle becomes one big workshop, with everything within easy reach.

Just open the tool boxes and pick what you need.

And if you happen to have just one free hand, don't worry: Usag has designed a practical, ergonomic handle that allows you to open the drawers even with just one hand.

Tool boxes too can be opened with the greatest of ease: the clip fasteners are designed to allow access to each tool box without pulling out the entire module.

All you have to do is choose the right tool at the right time: when it comes to that, not even Matrix can take the place of a real professional.

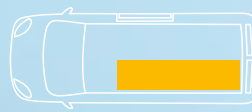

Time saving, energy saving, improved working efficiency. In other words: everything on board.

Ample storage capacity: modules with removable tool boxes of fixed drawers and shelves.

Organization and convenience now go hand in hand.
